EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Adenike Adebiyi on 5-11-07.

The application has been amended as follows:

Claim 62, line 1, delete "claim 60" and insert --- claim 61 --- therefor.

Claim 63, line 1, delete "claim 60" and insert --- claim 61 --- therefor.

The following is an examiner's statement of reasons for allowance: The claims are now commensurate with the showing of unexpected results. Upon reconsideration, Applicants' argument that the hydroxyethylcellulose used in the showing is representative of hydroxyethylcelluloses is persuasive. It would not be expected that the unexpected results, namely that the coating is less prone to cracking and similar mechanical defects, would depend significantly upon changing the molecular weight of the hydroxyethylcellulose used, and a person of ordinary skill in the art, who is familiar with polymer coating technologies (hydroxyethylcellulose being commonly used as a coating polymer in the pharmaceutical art) would be able to account for any such variation.

Note that in view of the prosecution history, the term "consisting essentially of" is read to *exclude* the presence of any film forming polymer, osmopolymer, or osmotic agent (the latter being any ionized or ionizable species) with the exception of those specified in the claims. Also, this term is understood to *exclude* the presence of plasticizers (except to the extent that the osmopolymer osmotic agent, and film former of the claims may also act as plasticizers), since plasticizers are known to the artisan to materially alter the properties of a polymer coating or film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric E. Silverman, PhD whose telephone number is 571 272 5549. The examiner can normally be reached on Monday to Friday 7:30 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Woodward can be reached on 571 272 8373. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
